

Abbotswood Primary School Homework – Term 4

Year 1

Tasks I must complete each week:

Reading

Your child should be reading their schoolbook at **least 4** times a week.

Remember to also read books of interest to them to keep them excited about stories.

All reading books and should come in to school **FRIDAY**.

records **EVERY**

Phonics

Children have a list of common exception words each term that we would like them to learn. Please practise the **Term 4 common exception words** as well as the words that they struggled with from earlier terms.

Number Bonds

Children are expected to have instant recall of number bonds to **5, 10 and 20** by the end of Year 1.

Please can you practise these bonds at home, securing knowledge and understanding. This can initially be done by using resources (fingers are a great help as they are always with them!) then moving onto instant recall.

This term, I can choose to do:

As an athlete:

Get moving! Whether it's going on a small walk, jumping on a trampoline or playing at the park, get a bit of exercise and move about.

As a scientist:

Research the things you can see that move at home, outside and in your local area. Make a list or poster to show them.

As an engineer:

Create a moving split pin animal. Think about what parts of it move: legs, tail, mouth, etc.

As an author:

Find books with moving parts (flap, pop-ups, levers and sliders). Perhaps visit the library to find some new ones.

Could you be inspired to make your own book or card with moving parts?
