

This Term in Year 5

Welcome back! We hope you have had a great summer and are feeling ready to return to school for what will be a busy and exciting year! It has been lovely having you all in the classroom and we have enjoyed getting to know you and finding out about all the things you have been up to whilst you have been away! We have been so impressed with the children's work ethic and attitude to learning, and look forward to seeing even more of this! If you have any questions, please feel free to speak with us :)

Miss Cocks and Miss James :)

Maths

This term the children will be looking at the numerical value of a digit within a number (place value) and will also move on to look at the four operations (+ - x ÷).

Whilst we will teach the children strategies to learn their times tables, any additional help at home would be greatly appreciated and would stand them in great stead for the year!

English

We will be looking at the 'The Jamie Drake Equation' by Christopher Edge. We will be embedding our knowledge of various grammar skills called our 'Authors' Toolbox'. Then, we will be writing in many different styles throughout the term, ensuring that we focus on our 'Authors' CAP':

C = Cohesion A = Audience

P = Purpose

Enquiry

The main states of being that we will be throughout this enquiry will be scientists, artists and geographers. We will be exploring many things such as the shapes of the Earth, sun and moon and how we have day and night. When being artists, we will look at artists' interpretations of the solar system. When being geographers, we will be looking at physical and human geographical landmarks that are visible from space.

RE

The children will be thinking about what motivates Humanists to lead good lives.

Computing

In computing, we will be developing our coding skills using Espresso coding on Discovery Education.

PE

PE days are Monday and Friday.

On Mondays, Miss Cocks will lead both classes coaching football.

On Fridays, we will be doing Hockey!

PSHE

During PSHE sessions, we will be looking at our rights and responsibilities and behaviour choices.

Music

We will be learning about melody and harmony in music.
