Tuesday 21st July 2026 -INSET

Save Water!

Water is a very important part of our lives so it shouldn't be wasted. If we didn't have water in our lives we would not be alive. Wasting water would not only be bad for us but it would also affect the wildlife and cause droughts. If you waste water it could hurt your community as well as others.

What you can do to help

1. Take 5-10 minute showers
2. Have more showers than baths
3. Use rain water to wash your wellies/rain boots
4. Remember to turn off the tap
5. Turn the tap off when you are brushing your teeth

Water butts

You should use water butts because they collect rain water and they also help the environment by not causing floods.

By Holly rae and Lacey (Eco Councillors)
